

Type RBA-RDB-800 Refill Power Fuse • Two RBA-RDB-400 Fuse Holders With Time Lag Refills
Melting and Total Clearing Time-Current Characteristics

Curves are calculated on the basis that the resistance between the terminals of the RBA-RDB-800 fuse mounting, with one fuse open, is between 1.80 and 2.25 times the resistance with both fuses closed, conditions otherwise being the same as for RBA-RDB-400 units.
