

Index to Apparatus Handbook and Apparatus Catalog File

1987 Issue

This index is designed to help you quickly locate information on any product listed in the Apparatus Handbook and Apparatus Catalog File as of Dec. 1, 1986.

Mailing Symbols appear opposite each section or tab number that is available for distribution.

Do You Need More or Less Handbook Information?

Your General Electric Apparatus Handbook probably does not contain all of the sections listed in the index since the content of each Handbook is tailored to fit the needs of the individual bookholder. However, if you are interested in apparatus products not listed in your Handbook or wish any other change to be made in your Handbook, please consult your local General Electric sales office. A list of sales offices starts on page 14.

ADDITIONAL COPIES OF THIS INDEX

Available on request to General Electric Company, Distribution Operation, 705 Corporations Park, Scotia, NY 12302.
Be sure to specify the number of copies desired.
