Placing An Order

Placing An Order

Thank you for using Siemens switchgear products. We appreciate the opportunity to help you keep your Siemens equipment properly maintained and to help you get maximum value from your purchase.

Siemens is proud to provide prompt, accurate service for our customers and their distributors. All of Siemens standard parts for switchgear are listed in this document together with current pricing. As you make your selections, feel free to contact your distributor or Siemens sales representative or the Siemens Renewal Parts Department for assistance.

We look forward to serving your needs. Let us know how we can help.

To Place An Order Directly With Siemens...

The most efficient way to place an order is with a completed Purchase Order. Each PO should be made out to Siemens and should include a detailed listing of part numbers, part descriptions and correct prices. The PO should also incorporate, by specific reference, the standard Siemens terms.

Purchase Orders may be submitted to Siemens via FAX. The original PO should then be mailed to Siemens.

To Place An Order With Your Distributor...

Your Purchase Order should be made out to your distributor and should include a detailed listing of part numbers, part descriptions and correct prices. The PO should also incorporate the distributor's standard terms.

Distributors typically require that a Purchase Order be submitted via fax and/or mail.

Minimum Order:

The minimum order for renewal parts is \$100.00.

(For quick future reference, complete this information. Upon your first call to Renewal Parts, a Parts representative will be assigned.)

My Siemens Distributor or Sales Representative is: _____

Address: _____

Phone: _____

Fax: _____

My Renewal Parts Representative is: _____

Parts Rep's direct number: _____
