# **AC MAGNETIC RELAYS FOR CAPACITOR MOTOR STARTING POTENTIAL TYPE**

Class 8505 Magnetic Relays are for replacement purposes or existing applications only, and are not for new applications. When ordering devices, the specification number from the relay nameplate

must be included along with the class and type number and voltage of the relay.

#### 25 AMPERE RELAY

| 110-600 VOLTS 25-60 HERT                    |                                |              |                   |               |  |
|---|--------------------------------|--------------|-------------------|---------------|--|
| Description                                 | Continuous<br>Ampere<br>Rating | Open<br>Type | Order<br>Quantity | Price<br>Each |  |
| Single Pole—Single Throw<br>Normally Closed | 25                             | AO-1         | 1-10              | \$210.        |  |
|   |                                |              | 11-24             | 180.          |  |
|   |                                |              | 25 and Up         | 140.          |  |
| Single Pole—Double Throw                    | 25                             | BO-1         | 1-10              | 230.          |  |
|   |                                |              | 11-24             | 210.          |  |
|   |                                |              | 25 and Up         | 156.          |  |

#### **ORDERING INFORMATION REQUIRED**

- $1-{\sf Specify}$  class and type number and voltage of relay.  $2-{\sf Give}$  specification number from nameplate.

### 15 AMPERE RELAY

| LINE VOLTAGE 115-230      |                 |    |                                  |              | 25-60 HERTZ       |               |  |
|---------------------------|-----------------|----|----------------------------------|--------------|-------------------|---------------|--|
|                           | Maximum Ratings |    |                                  |              |                   |               |  |
| Description               | Volts           | НР | Start Winding<br>Current (Amps.) | Open<br>Type | Order<br>Quantity | Price<br>Each |  |
| Single Pole, Single Throw | 115             | 3  | 50                               | CO-2         | 1-4               | \$90.         |  |
| Normally Closed           | 230             | 5  | 35                               | 00-2         | 5 and Up          | 72.           |  |

# **ORDERING INFORMATION REQUIRED**

- 1 Specify class and type number and voltage of re
- 2 Give specification number from nameplate

Type BO-1 single pole, double throw capacitor motor relay.

Type CO-2

## **APPROXIMATE DIMENSIONS**

Types AO-1, BO-1
